Saturday 7:00 pm

Dirk Losander specializes in the Art of Levitation and Animation. In this lecture he will show you a lot of new effects. Most of his material can be performed under any condition, surrounded close-up or on stage. Especially the tricks which he created for close-up situations which are structured to be shown over and over again without any reset preparations. Losander has really mastered all of his effects and he is about to share his knowledge with you.

Losander will teach you routines which you can learn in a couple of minutes and make your audience believe you are a real magician!
